Team Responsibilities:

All teams are expected to be in the gym by 9:45am. The team listed as refereeing will provide two referees (R1 & R2), two-line judges, a scorekeeper, and someone to flip the scoreboard for the court (a total of 4 players). Coaches are expected to be at the score table to help out as needed. Any team not showing up or staying for refereeing duties will forfeit their games for that day.

Champion Volleyball Club Youth Sports Philosophy:

The Champion Volleyball Club aspires to be an outstanding club organization that returns sports to kids. This club is responsible for: providing a healthy, positive Environment for participants; teaching and reinforcing the fundamentals of volleyball; encouraging teamwork and sportsmanship; focusing on positive reinforcement as a primary tool in the learning process; teaching that opponents and officials are to be respected and appreciated; and offering advanced skills and techniques for those athletes who wish to play at the next level. This club does not believe in winning at all costs, nor that constant yelling at athletes results in better players, better results, or players who will want to continue playing the sport. This club believes its participants are best served by providing an environment which will foster a long-term love for the game. This club is dedicated to opening minds to the idea that while winning is clearly a primary objective, competition, improvement, playing to the best of one's ability, and being a good sport and teammate, ultimately provide most of one's enjoyment and fulfillment. Our athletes will feel like an important part of the team, regardless of performance: and, our athletes will learn the skills, tactics, and strategies of the game and improves as a player. Our goal is the overall development of the player both as an athlete and as a person.

We Honor the Game Here

We are changing the culture of youth sports by redefining what it means to be a winner in life and raising awareness of, and guarding against, dysfunctional behavior.
